Buy It Here: [\\$42.00 - \\$52.00](#)

By Troy Dreier

#### Pros:

Works wirelessly with RF receiver. The receiver tucks inside the mouse when not in use, automatically turning the mouse off. Comfortable wide body. Mouse turns off after a few minutes of inactivity. Powered by two included triple-A batteries.

#### Cons:

No way to tell when batteries are running low.

#### Bottom line:

We love the convenience of the small yet comfortable Kensington PocketMouse Optical Micro Wireless, which works wirelessly via an RF connection, then stores the USB RF receiver inside the mouse's case when not in use. Storing the receiver automatically shuts the mouse down to save on battery life.
